Thursday 19th April: Display, KMC: **THE BLACK BOY HOTEL "Gone but not Forgotten"** (Richard Upton/SMB) in the Keyworth Methodist Church Hall.

Located on Long Row, the Black Boy Hotel was rebuilt on the site of a C17th inn in the late 1880s by local architect Watson Fothergill. The building survived until 1970 when it was demolished amidst great public outcry to make way for a new building, occupied by Littlewoods, and latterly Primark. This modernist build is in stark contrast to Fothergill's easily identifiable style. The exhibition is a detailed history of the building, architects plans, photographs and carefully reconstructed scale model of Fothergill's glorious building. [See links to Watson Fothergill websites in previous newsletter and Trail circulated for December 2017 meeting].
